

AUTOMATIC LIFT FOR PACKAGES. MODEL AS-1.

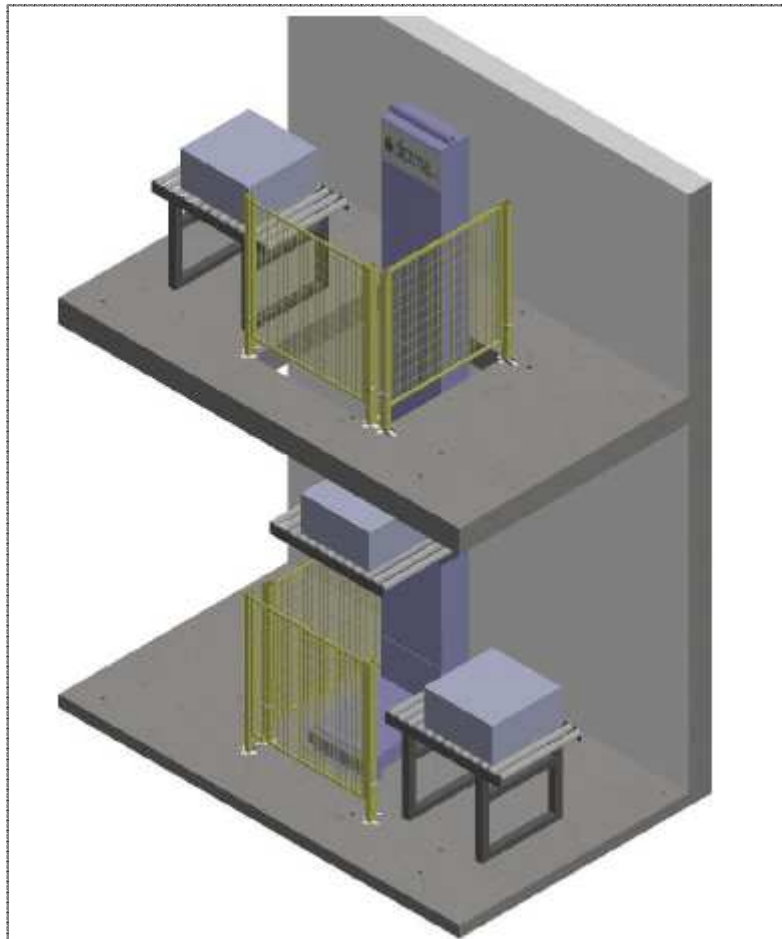

WORKING

The up/down system waits for input of the packages by a motorized conveyor. Once it completed, the conveyor goes up or down and evacuates the packages. The entire process is fully automated and requires no operator.

TECHNICAL SPECIFICATIONS

Very robust design. All mechanical, pneumatic and electronic elements are high quality, standards and available on the market.

Example of lay out :

Voltage	220 V ou 380 V
Installed electric power	Depends on project
Maximum production	Depends on project
